Broach Code Identification Guide

Our new broach coding will help you find the company specific broach to assist you in identifying the appropriate handle for your stem/ceramic or cartridge unit.

The stem shown below (23-1828) is associated with a 16pt. B-18 broach style. Therefore, the suggested handle would use that same B style broach. Since there are multiple 16pt. broaches, make sure both your stem/cartridge and corresponding handles share the same B style broach.
