Dominion Faucets Meet the Following Standards:

Uniform Plumbing Code

Tested and certified by the International Association of Plumbing & Mechanical Officials. Compliant with American and Canadian codes and standards.

All
Faucets

AB1953 Compliant/Lead-Free

Indicates lead-free products containing less than .25% lead contents on wetted surfaces in applications for human consumption.

NSF

Certified by NSF International, Inc., and complies with NSF standards.

WaterSense

WaterSense certified by IAPMO R&T and meets the U.S. Environmental Protection Agency's (EPA) water efficiency standards. (WaterSense labeled Lavatory Faucets use a maximum of 1.2 gpm.)

Where
Indicated

CEC

California Energy Commission (CEC) compliant. Meets CEC guidelines for plumbing fixtures.
(Max. Rates: Lavatory Faucets 1.2 gpm, Kitchen Faucets 1.8 gpm, Shower Faucets 1.8 gpm)

ADA

Americans with Disabilities Act (ADA) compliant.
Meets ADA Accessibility Guidelines - 4.27.4

Broach Code Identification Guide

Our new broach coding will help you find the company specific broach to assist you in identifying the appropriate handle for your stem/ceramic or cartridge unit.

The stem shown below (23-1828) is associated with a 16pt. B-18 broach style. Therefore, the suggested handle would use that same B style broach. Since there are multiple 16pt. broaches, make sure both your stem/cartridge and corresponding handles share the same B style broach.

PERFECT PUTTY®

Perfect Putty® is a pre-installed Plumber's Putty Rope with a specifically designed profile to provide the maximum amount of putty in the areas where it is needed. This profile makes sure the **installation is quick and perfect**. A minimal amount of putty is wasted compared to the method of rolling putty ropes by hand from a tub of putty.

The top angle hugs the flange at the top of the strainer or pop-up. The front angle makes sure enough putty contacts the sink or tub.

All Perfect Putty® Items are Hermetically Sealed
to keep the putty in perfect condition until you are ready to install it!

28-6825	24"	\$39.90 ea.	\$199.80 ea.

Installation Instructions

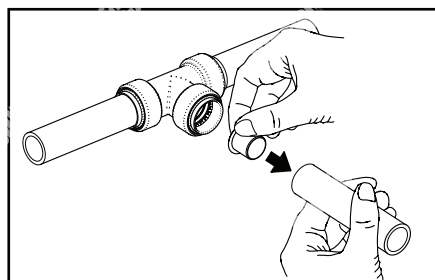

Connecting to Copper or CPVC Tubing:

Cut the tubing so that the ends are square. Bevel copper or CPVC Tubing with appropriate beveling tool. Place a mark from the end of the tubing: (see chart)

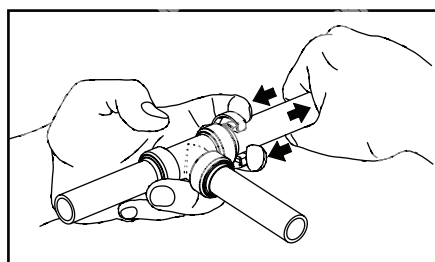

<u>Tubing Size</u>	<u>Distance From End</u>
1/2"	3/4"
3/4"	7/8"
1"	1-1/8"

Insert tubing into the fitting with a slight twisting motion until the mark disappears and a clicking noise is heard. Leave sufficient room for disconnection.

Connecting to Pex Tubing Only:

Cut the tubing so that the ends are square. Stiffener/stiffeners must be inserted into the open end of the tubing prior to the insertion of the pex tubing into the socket of the fitting. Once stiffener is inserted, follow instructions for copper or CPVC Tubing. If the stiffener/stiffeners are not included in this bag they must be purchased separately.

Disconnecting the Fitting:

Clip the disconnecting tool over the tubing and slide to make contact with the push-ring. Grip the pipe with one hand and using the other hand compress the push-ring with the disconnecting tool. Once the push-ring is fully compressed, simultaneously pull the tubing away from the fitting and rotate until assembly is completely disconnected.

Burst Blocker® Excess Flow Stopper Adapters

Burst Blocker® Adapters minimize damage from burst water lines.

With Burst Blocker® Adapters in place, should your water supply line burst, the Burst Blocker® quickly shuts the water off to minimize water damage.

Featuring Patented Flow Control (US Patent No.: 9,777,857), these innovative Adapters fit between standard valves and supply lines, are easy to install and offer simple protection for your home.

Available in complete Blister Box Project Pack Kits for Kitchen, Bathroom, Faucet/Toilet, Washing Machines, Dishwashers and Ice Makers.

A Small Price to Pay for the Best.

KISSLER'S Kan't Burst™ Connectors

for Faucets

for Toilets

for Water Heaters

for Ice Makers

for Dishwashers

for Washing Machines

Perhaps KISSLER'S Kan't Burst™ Connectors cost as little as a dime more than your current source, but perhaps not. Even if we are priced slightly higher, you wind up saving over the long run. We offer a 100% satisfaction guarantee that our connector is a better quality than what you are currently buying.

KISSLER'S Kan't Burst™ Connectors feature:

- Hi-Grade 304 Stainless that will not rust, kink or crease
- A PVC Liner that will not corrode
- A 12 Point Crimp that will never come loose
- Steel Nuts that will never oxidize

So, are you possibly willing to give 10 cents to get 100%? Kissler thinks the answer should be obvious.

Call today to learn more about our full line of Kan't Burst™ Connectors for Faucets, Dishwashers, Ice Makers, Washing Machines and Water Heaters. *Private label is available with certain requirements.*

Quality and durability make them worth every dime.

Diverter

Fits Manufacturer
Wolverine

16 pt.
B-35

Length: 6 5/8"

OD MM: #5

Packaging	Product #	each
bag	23-5094 ...	\$120.00

Diverter

Fits Manufacturer
Briggs

B-43

Length: 6 3/4"

OD MM: #1

Packaging	Product #	each
bag	23-2048 ...	\$135.00
